Subject: OSP Weekly Report: Week of May 9 – 13, 2016

Afternoon Fred,

This week's OSP report is below for your review and comment.

OSP Weekly Report
Week of May 9 – 13, 2016

Tire Crumb

- On May 12, representatives from CPSC and EPA (including OSP) visited the Ex. 3 [CERCLA section 104(e)(7)(42 USC 9604(e)(7))] to see first-hand how tire crumbs are manufactured. Ex. 3 [CERCLA section 104(e)(7)(42 USC 9604(e)(7))] makes tire crumb material for both synthetic turf infill and playground material.
- The external peer review of the research plan is ongoing, and comments are expected by May 17. CDC, CPSC and EPA are currently reviewing the public comments that were submitted in response to the *Federal Register* notice. EPA will include responses to the public comments in the package of information that will be sent to OMB.
